

## Estimates of Land Use, Impervious Surface and Annual Nonpoint Source Pollution Loads

## Como Drive/Lake Como

### Como Drive/Lake Como

Como Drive/Lake Com

Como Drive/Lake Como; some construction, new culvert and rip-rap. Lake Como is a prime example of what can happen to a shallow waterbody from silt, sediment and septic contributions - loss of open water area, eutrophication, foul odors, algae blooms. Como Drive divides the lake and has likely contributed a great deal to the problem over the years.
