

# Master Plan Final Workshop

December 8th, 2022  
6:30 - 8:00 PM  
Town Hall  
400 Slocum Road  
Room: 304

A Master Plan is a long-range policy document that guides community decision-making. It describes the experience of living in town today, and articulates the strategies, actions, goals, and priorities that will propel Dartmouth toward the optimal vision of its future.

Over the past three years, ideas and input from Dartmouth residents and business owners, expressed in workshops before and throughout the pandemic, have formed the essential building blocks of Dartmouth’s Master Plan.

Attend the final public workshop and be a part of the exciting culmination of this process, where we will present plan recommendations and next steps for implementation.

**Please visit the project webpage for more information. Plan draft chapters are posted on this page for review. If you have feedback on the plan but cannot attend the meeting, please e-mail comments to Christine O’Grady, Director of Planning: [cogrady@town.dartmouth.ma.us](mailto:cogrady@town.dartmouth.ma.us)**
