

Conservation Subdivision Bylaw Community Meeting

Monday, Oct. 6 | 6pm | Old Town Hall

Join SRPEDD for a public workshop on proposed updates to Dighton's Conservation Subdivision Zoning Bylaw, which seeks to balance growth with the protection of open space, recreation, farmland, and natural resources.

During the workshop, SRPEDD will:

- Share findings from a regional bylaw review
- Highlight strategies that can help preserve open space and rural character while meeting the community's housing needs.
- Review the Bylaw and recommend changes.

Your input is essential—help ensure the updated bylaw reflects Dighton's values and priorities.
